

I am writing to announce the publication of the autobiography of Jacob L. Moreno – the *Autobiography of a Genius*.

Many of you know that Moreno was instrumental in the founding of IAGP and a pioneer of group work both in the United States and internationally.

After six decades since the beginning of work on this project, the *Autobiography of a Genius* by Jacob L. Moreno is finally available in its entirety!

J.L. Moreno began work on this project in the 1950s; countless people contributed to manifest this three book volume - including Zerka Moreno, Jonathan Moreno, Edward Schreiber, Sarah E Kelley, Scott Giacomucci, Zoli Figusch, Adam Marshall Barcroft, Sergio Guimarães, Harvard Medical School Countway Library, North West Psychodrama Association, and many others!

J.L. Moreno writes:

“Being a genius does not consist only of having ideas. This is essential, but is a far later phase of genius. Being a genius starts with a feeling of being in contact with the whole universe, a feeling of totality, being fed by it free of charge and feeding it gratefully in return.”

In this book, the presentation of his life, vision, and life’s work, Moreno gives countless portals for the opening of contact with the whole universe, to a feeling of totality. This totality is what motivated him, and has also motivated the editor for much of his life. The direct felt experience of this totality is at the center of religious, existential, and spiritual traditions, and in this book we have an uncloaked method for the same enlightenment process. The totality and wholeness of life can be found in the enactment of Moreno’s method. What can be greater than to really live this and to give it to others? - Ed Schreiber

This 466 page volume contains three books/sections:

- Preludes to my Autobiography
- Autobiography of a Genius
- King of the Hippies (Cosmic Man)

“In assembling this material, much of it available for the first time, the editors have done a remarkable service for those who want further insight into JL’s fertile and radically creative mind.”
– Jonathan D. Moreno
